

Main Indication Areas (as of March 2003)

INFECTIOUS DISEASE

Antibiotic formulation product concept test – semi-quantitative interviews in UK
Antibiotic baseline study – depth interviews in China
Antibiotic positioning study – semi-quantitative interviews in Pakistan, SA, Australia, Taiwan, Hong Kong, S. Korea, Philippines, Thailand, Indonesia
Septic shock baseline study – group discussions in Germany, Spain, France, Italy & UK
Septic shock product concept test – semi-quantitative interviews in Germany, Spain, Italy, France & UK
Antibiotic product concept test – group discussions in France, Italy, UK & USA
Sepsis product concept test – group discussions in Germany, France & UK
Antibiotic positioning study – semi-quantitative interviews in Germany, Italy, Spain, France, UK, Philippines, México
Antibiotic communication study – group discussions in Germany, France, Spain, Italy & UK
Antibiotic pricing study – semi-quantitative interviews in México
Antibiotic positioning study – semi-quantitative interviews in Germany, France, Italy, UK & Hungary
Sepsis baseline study – qualitative interviews in Germany
Sepsis product concept test – group discussions in Germany, UK & USA
Antibiotics baseline study – semi-quantitative interviews in Germany, UK, France, Spain & Italy
Antibiotics communication test – qualitative multi-method survey in Germany, France & USA
Sepsis tracking study – semi-quantitative interviews in Germany
Antibiotics communication test – semi-quantitative interviews in Germany, Italy, Spain & France
HIV product concept test – qualitative interviews in Germany
HIV baseline study – qualitative interviews in Germany
Antibiotics pricing study – quantitative interviews in Germany
Antibiotics pricing study – quantitative interviews in Mexico
Antibiotics product concept test – semi-quantitative interviews in Germany, France & UK
Penicillins baseline study – qualitative interviews in PR China
Streptococcus baseline study – qualitative interviews in Germany
Streptococcus product concept test – qualitative interviews in Germany
Sexually transmitted diseases product concept test – multi-method survey in Germany
Antineoplastic and immunomodulating agents concept test - qualitative interviews in France, Spain & USA
Treatment of HIV/ AIDS baseline study - qualitative interviews in Spain, France, Italy, USA & Mexico
HIV Brand/Treatmark test - qualitative interviews in France, Spain & USA
Antibiotic delivery device handling test - qualitative interviews in Germany, France, Spain, Mexico
Positioning Test - qualitative interviews in Germany, France, Italy, Spain
Brand Recall Test Influvac - qualitative interviews in France, Germany, Italy, UK, Belgium, Portugal, Netherlands
Severe sepsis baseline/ concept test - quantitative interviews in USA, France, Germany, UK

IMMUNOLOGY: ALLERGIC DISORDERS (ANTINEOPLASTIC AND IMMUNOMODULATING AGENTS)

Antihistamines product concept test – semi-quantitative interviews in Spain, France, UK
Antihistamines product concept test – semi-quantitative interviews in Spain, Germany, Italy
Steroids product concept test – semi-quantitative interviews in Germany, France, Spain, UK, Japan, USA
Steroids product concept test – semi-quantitative interviews in Germany, UK
Immunoglobulin baseline study – qualitative interviews in Germany
Transplant medicine concept test – qualitative interviews in Poland
Transplant medicine baseline study – qualitative interviews in Poland, Hungary & Czech Republic
Transplant medicine communication test – semi-quantitative interviews in Germany

PULMONARY DISORDERS

Anticholinergics baseline study – semi-quantitative interviews in Germany, UK & USA
Asthma product concept test – semi-quantitative interviews in Germany & UK
Respiratory treatments concept test – qualitative interviews in Germany, France, UK & USA
Asthma baseline study – qualitative interviews in Germany
Handling and Packaging Test in USA
Pricing and Positioning Study - qualitative interviews in Germany, UK
Asthma pre-launch marketing symposium - congress evaluation in France

Main Indication Areas (as of March 2003)

Cont.

GASTROINTESTINAL DISORDERS

Gastritis baseline study – semi-quantitative interviews in Germany, France & Italy
Gastritis ad test – semi-quantitative interviews in Germany, France & Italy
Gastritis product concept test – group discussions in Germany, France, Italy & UK
Gastritis ad test – semi-quantitative interviews in Germany, France & UK
Gastritis ad test – semi-quantitative interviews in Germany
Gastritis product concept test – semi-quantitative interviews in Germany, France, Spain, Italy, Japan, UK & USA
PPI detailing communication test – telephone survey in Germany & UK
Alimentary tract and metabolism concept test - semi-quantitative interviews in Germany, Italy & USA
Gastro-Esophageal Reflux Disease tablet test, qualitative interviews in Germany, France, Italy, Spain, UK & USA

CARDIOVASCULAR DISORDERS

Hypertension product advertising test – semi-quantitative interviews in Germany, Spain & UK
Acute Myocardial Infarction concept test – quantitative interviews in Germany, France, Italy & UK
Hypertension product tracking study – semi-quantitative interviews in waves in Germany
Hypertension drug compliance study – group discussions in Germany
PAOD product concept test – semi-quantitative interviews in USA
PAOD product concept test – semi-quantitative interviews in Switzerland, Germany & The Netherlands
Arrhythmia product concept test – group discussions in Germany & France
Angina pectoris product assessment & usage study – group discussions in Germany
PAOD product concept test – group discussions in USA
PAOD product concept test – mail interviews in Italy
Hypertension product concept test – group discussions in France, Italy & USA
CHD baseline study – multi-method survey in China
PAOD baseline study – multi-method survey in China
Hypertension baseline study – multi-method survey in China
CHD product concept test – semi-quantitative interviews in France & UK
CHD / heart failure baseline study – depth interviews
Hypertension positioning study – semi-quantitative interviews in Brazil, Spain, France, Italy & UK
Hypertension folder test – group discussions in France, Italy & UK
Angina pectoris folder test – group discussions in Italy
Hypertension product concept test – semi-quantitative interviews in Brazil, Canada, Germany, Spain, France, Italy & UK
Hypertension – quantitative congress survey
CHD product concept test – group discussions in Germany, Italy & USA
Hypertension product concept test – group discussions in France, Italy & USA
Hypertension product concept test – group discussions in Germany, France, UK & USA
Stroke product concept test – semi-quantitative interviews in Germany, France, Spain, UK & USA
Hypertension product concept & ad test – multi-method survey in Germany
Hypertension baseline study & concept test – multi-method survey in Germany, France, UK, Italy, Spain, Argentina, Brazil & Canada
Hypertension/Diabetes baseline study – qualitative interviews in Germany
Hypertension product concept test – qualitative interviews in Germany
Hypertension / BPH dual therapy baseline study – qualitative interviews in Germany
CHD product concept test – semi-quantitative interviews in Germany, France, Italy, Spain & UK
CHD baseline study – group discussions in Germany
Hypertension baseline study – telephone interviews in Germany
Hypertension baseline study – group discussion in Germany
Sartan Positioning Study in Japan, Canada, Brazil, USA and European Countries
Profile assessment CHF - qualitative interviews in USA, UK, Germany, Spain
Implementation of CV prevention guideline - qualitative interviews in Germany, Spain, Poland, France, Italy, UK
New Drug for Chronic Stable Angina Pectoris, concept test - quantitative interviews in Spain

HEPATIC AND BILIARY DISORDERS

Liver cirrhosis study – semi-quantitative interviews in Germany
Liver cirrhosis baseline study – group discussions in Germany & Italy

Main Indication Areas (as of March 2003)

Cont.

NUTRITIONAL AND METABOLIC DISORDERS (ALIMENTARY TRACT AND METABOLISM DISORDERS)

Hyperlipoproteinemia product concept test – semi-quantitative interviews in UK
Weight management treatment: sales folder test – qualitative interviews in Poland & Philippines
Anti-obesity therapy communication test – qualitative multi-method survey in Germany, France, Italy & UK
Cystic fibrosis product concept test – telephone interviews in UK
Statins communication test – group discussions in Germany
Lipid lowering drug communication test – semi-quantitative interviews in Germany, France, Spain, The Netherlands, Brazil & Philippines
Weight management treatments baseline study – group discussions in Germany
Weight management treatments tracking study – quantitative interviews in Germany
Monitoring of medical practice in IBS/IBS baseline study - qualitative interviews in France
Treatment of Dyslipidemia - qualitative interviews in Germany, France, Spain, UK

ENDOCRINE DISORDERS

Diabetes: Insulin wastage assessment & usage study – quantitative interviews in France & Sweden
Diabetes product concept test – semi-quantitative interviews in Germany, Spain, Japan & UK
Diabetes product concept test – semi-quantitative interviews in Germany, France, The Netherlands, UK & USA
Diabetes Type 2 product concept test – group discussions in Germany, France & USA
Diabetes study – desk research
Diabetes prevention baseline study – semi-quantitative interviews in Germany, France, Spain & USA
Obesity product concept test – group discussions in Germany
Type 2 Diabetes: Concept test – group discussions in Germany, Brazil & USA
Type 2 Diabetes: Concept test & potential estimation – multi-method survey in Germany, France, Italy, Spain, UK, USA, Brazil & México
Impaired glucose tolerance baseline study – semi-quantitative interviews in Germany
Diabetes treatment product concept test – group discussions in Germany
Diabetes Type 1 patient flow analysis baseline study - qualitative interviews in Germany

HEMATOLOGY AND ONCOLOGY

Haemophilia baseline study – depth interviews in Brazil & México
Oncology product concept test – depth interviews in Germany, France, Italy & UK
Prostate cancer product concept test – group discussions and depth interviews in Germany, France & Sweden
Blood volume replacement product concept test – semi-quantitative interviews in China
LHRH agonists product concept test – semi-quantitative interviews in Germany, France, Italy & USA
Heparin inhibition in Surgery product concept test – group discussions in Germany & UK
Oncology product concept test – telephone interviews in Germany & UK
Haemophilia communication study – semi-quantitative interviews in Germany, Spain, France, Italy & UK
Cancer treatment branding test – qualitative interviews in Germany
Oncology motive and logo test – qualitative interviews in Germany, France, Spain, Italy & UK
Anticoagulants baseline study – group discussions in Germany, France & USA
Anticoagulants concept test & positioning study – semi-quantitative interviews in France & USA
Chemotherapy baseline study – telephone interviews in Germany, Italy, France & UK
Prostate cancer product concept test – qualitative interviews in Germany, Italy, Spain, France & UK
Oncology product concept test & market potential estimation – semi-quantitative interviews in Argentina, Brazil, México & Colombia
Oncology communication test – qualitative interviews in Germany, France, UK, Spain & Italy
Oncology product concept test & market potential estimation – semi-quantitative interviews in Italy
EPO treatment baseline study – semi-quantitative interviews in Germany, Italy, France, Austria & UK
EPO delivery devices handling test – qualitative interviews in Germany & UK
EPO delivery devices handling test – semi-quantitative interviews in Germany, Spain, France, Italy & UK
DVT in cancer baseline study – qualitative interviews in Germany
Anticoagulants product concept test – semi-quantitative interviews in Germany, France & USA
Oncology product concept test & market potential estimation – multi-method survey in Germany, Spain, France, Italy & UK
Oncology communication test – semi-quantitative interviews in Germany
Haemophilia company image test – qualitative interviews in Germany, Spain, France, Italy & UK
Oncology corporate image & branding test – semi-quantitative interviews in Germany
EPO in Pre-Dialysis Patients baseline study - qualitative interviews in Germany, Italy, France, Spain, UK
Tracking of NHL / CLL Therapy Regimen - quantitative interviews in Germany, France, Spain, Italy, UK
Oncology study / antineoplastic and Immunomodulating agents - qualitative interviews in Germany, France, Italy, Spain, UK

Main Indication Areas (as of March 2003)

Cont.

MUSCULOSKELETAL AND CONNECTIVE TISSUE DISORDERS

Bone replacement therapy - ad test – semi-quantitative interviews in Germany
 Rheumatoid Arthritis product handling test – semi-quantitative interviews
 Osteoporosis product concept test – semi-quantitative interviews in Germany, France & USA
 Rheumatoid Arthritis product concept test – semi-quantitative interviews in Germany, France, Spain, UK, Italy & USA
 Rheumatoid Arthritis baseline study – telephone interviews in Germany, France, Italy & UK
 Rheumatoid Arthritis ad test – semi-quantitative interviews in Germany, France, Italy, UK, USA, Brazil & Taiwan
 Rheumatoid Arthritis handling test – semi-quantitative interviews in Germany, Spain, France, Italy & UK
 Rheumatoid Arthritis ad test – semi-quantitative interviews in Germany, Spain, France, Italy & UK
 Rheumatoid Arthritis packaging test – multi-method survey in USA, Germany, France, Spain, Italy & UK
 Rheumatoid Arthritis name test – qualitative interviews in France, Germany, Spain & USA
 Osteoporosis product concept test – multi-method survey in Germany, France, UK & USA
 Rheumatoid Arthritis handling test – qualitative multi-method survey in USA, Germany, Spain, France, Italy & UK
 Bone regeneration handling test – group discussions in Germany, France, Spain & UK
 Rheumatoid Arthritis baseline study – qualitative interviews in USA
 Rheumatoid Arthritis handling test – qualitative interviews in Germany & UK
 Bone regeneration handling test – qualitative multi-method survey in Germany, France, UK & USA
 Osteoporosis product concept test – semi-quantitative interviews in Germany, Spain, France, Italy, UK & USA
 Rheumatoid Arthritis Muscoloskeletalssystem - quantitative interviews in D

NEUROLOGICAL DISORDERS

Analgesic product positioning study – semi-quantitative interviews in Italy & México
 Analgesic product test – semi-quantitative interviews in Argentina, Brazil, México, Germany, Spain, Italy & Turkey
 Analgesic product concept test – semi-quantitative interviews in Italy
 Chronic Pain baseline study – telephone interviews in Germany, France & UK
 Insomnia product concept test – group discussions & depth interviews in Argentina & Brazil
 Insomnia product concept test – group discussions in Germany, Italy, France, UK
 Analgesic baseline study – group discussions and depth interviews in Germany, France, Spain, Italy, Poland & UK
 Analgesics product concept test – semi-quantitative interviews in Poland
 Analgesics product concept test – semi-quantitative interviews in Poland
 Parkinson Disease: Handling Test of a new product (packaging and application form) in the US and main European countries
 Insomnia ad test – semi-quantitative interviews in Germany, France, UK & USA
 Insomnia ad test – semi-quantitative interviews in Germany, France & USA
 Analgesics communication test – semi-quantitative interviews in Spain
 Insomnia product concept test – semi-quantitative interviews in Germany, France, UK, Brazil, Philippines, Hongkong & USA
 Parkinson Disease: New Product Concept Test in the US, France, Italy, Spain
 Late Stage Parkinson's Disease Treatment Practices and Concept Evaluation - qualitative interviews in Germany, France, Japan, Spain, UK & USA

PSYCHIATRIC DISORDERS

Schizophrenia baseline study – group discussions in Germany
 Anxiolytics baseline study – depth interviews in Germany, France, Italy, Sweden & UK
 Dementia product name test – semi-quantitative interviews in Belgium, Germany, Spain & UK
 Depression: product color test – semi-quantitative interviews in France
 Dementia / Alzheimer baseline study – semi-quantitative interviews in Austria, Germany, Spain, France, Italy & UK
 Alzheimer product concept test – semi-quantitative interviews in Germany, France, Italy, UK & USA
 Alzheimer ad test – group discussions and depth interviews in Brazil & México
 Parkinson baseline study – qualitative interviews in Germany
 Hyperactivity baseline study – qualitative interviews in Germany
 Parkinson handling test – group discussions in USA, Italy & Germany
 Depression baseline study – qualitative interviews in Germany
 Parkinson baseline study – semi-quantitative interviews in Germany
 Psychiatric disorders product concept test – semi-quantitative interviews in Germany
 Parkinson Disease handling test - quantitative interviews in Germany & USA
 Parkinson Disease spheramine concept test - qualitative interviews in Germany, France, Spain & USA

Main Indication Areas (as of March 2003)

Cont.

GENITO-URINARY DISORDERS (AND SEX HORMONES)

Erectile Dysfunction baseline study – group discussions in France, Italy, UK & USA
Erectile Dysfunction baseline study – group discussions in Germany, France & UK
Erectile Dysfunction patient baseline study – semi-quantitative interviews in Germany, France & Italy
Erectile Dysfunction handling test – semi-quantitative interviews in France, Italy, UK & USA
Erectile Dysfunction potential study – semi-quantitative interviews in France, Italy, UK & USA
Erectile Dysfunction pricing study – quantitative interviews in Germany, Spain, France, Italy & UK
Erectile Dysfunction handling test – semi-quantitative interviews in Germany, Sweden & USA
Erectile Dysfunction baseline study (4 in 1) – multi-method survey in China
Erectile Dysfunction folder test – group discussions in France
Erectile Dysfunction product assessment & usage study – semi-quantitative interviews in USA
Erectile Dysfunction product assessment & usage study – group discussions in France
Erectile Dysfunction product assessment & usage study – group discussions in Sweden
Erectile Dysfunction handling test – semi-quantitative interviews in Germany
Erectile Dysfunction baseline study – semi-quantitative interviews in Argentina, Brazil & México
Erectile Dysfunction competitor analysis study – group discussions in Italy
Erectile Dysfunction handling test – semi-quantitative interviews in Germany, France, Italy, UK & USA
Erectile Dysfunction product folder test – semi-quantitative interviews in Germany, France, Italy, UK & USA
UTI product concept test – telephone interviews in Germany, France, Italy & USA
Erectile Dysfunction product handling test – semi-quantitative interviews in USA
Erectile Dysfunction customer satisfaction test – semi-quantitative interviews in USA
Erectile Dysfunction baseline study – semi-quantitative interviews in USA
BPH baseline study – multi-method survey in Germany, Italy, France & USA
BPH baseline study – qualitative interviews in USA
Erectile Dysfunction baseline study – qualitative interviews in USA
Andropause baseline study – group discussions in Germany
Overactive bladder product concept test & market simulation – semi-quantitative interviews in Germany, Spain, France, Italy, UK & USA
BPH New Product Profile Assessment baseline study - qualitative interviews in Germany
Erectile Dysfunction concept test - qualitative interviews in Germany
BPH and Hypogonadism Baseline study - qualitative interviews in Germany, France, UK & USA
Treatment of Chronic Anal Fissures and Fecal Incontinence - quantitative interviews in Germany, France, UK
Aging in Men concept test - qualitative interviews in Italy, Spain, Portugal, Austria, Finland

GYNECOLOGY AND OBSTETRICS

HRT patch baseline study – group discussions in Germany, Spain, France, Italy & UK
Women's Health baseline study – group discussions and depth interviews in Australia, Germany, Spain, Japan, México & Poland
Osteoporosis product concept test – group discussions and semi-quantitative interviews in Germany, France, Italy, UK & USA
HRT product concept test – semi-quantitative interviews in Germany, Spain, France & UK
HRT product concept test – semi-quantitative interviews in Germany & Spain
Oral Contraception product concept test – semi-quantitative interviews in Brazil & México
HRT product assessment & usage – semi-quantitative interviews in Argentina, Brazil & México
Menopause – quantitative congress study
HRT product concept test – semi-quantitative interviews in Germany, France, Italy, UK & USA
Menopause baseline study – semi-quantitative interviews in China
HRT product concept test – group discussions in Brazil, Germany, France, México & USA
Oral Contraception product concept test – semi-quantitative interviews in Switzerland, Denmark, Spain, France & Italy
Dysmenorrhoea product concept test – group discussions in Germany, Italy & USA
Oral Contraception product concept test – semi-quantitative interviews in Switzerland, Spain, France & Italy
Menopause baseline study – semi-quantitative interviews in Germany & UK
Oral Contraception sales aid test – group discussions in Argentina, Italy, Netherlands & Hongkong
Menopause sales aid test – group discussions in Switzerland, Italy, Austria, Brazil, México, Belgium & Sweden
Oral Contraception packaging handling test – group discussions in France, Sweden, Brazil, Italy, México, Philippines & Austria
Oral Contraception blister handling test – semi-quantitative interviews in Switzerland, France, Italy, Brazil & Philippines
Menopause packaging handling test – group discussions in Brazil, Germany, México, Philippines, PR China & UK

Main Indication Areas (as of March 2003)

Cont.

PEDIATRICS AND GENETICS

Hypogonadism product concept test – group discussions in Argentina, Brazil & México
Human Growth Hormone baseline study – depth interviews in Germany, France, UK & USA
Human Growth Hormones product concept test – telephone interviews in Germany, France, Italy & UK
Chicken pox – qualitative interviews in Germany
Human Growth Hormone handling test – group discussions in Germany
Human Growth Hormones baseline study – desk research for Argentina & Brazil
Human Growth Hormones – quantitative congress survey

OPHTHALMIC DISORDERS

Vitreotomy product concept test – depth interviews in Germany, France, Italy & UK
Glaucoma product concept test – semi-quantitative interviews in Germany & France

DERMATOLOGICAL DISORDERS

Burns product concept test – depth interviews and group discussions in Germany, Spain, France, Italy, UK & USA
Company image (among Dermatologists) study – quantitative interviews in Germany, Spain, France & Italy
Burns product concept test – semi-quantitative interviews in Germany, France & Italy
Skin ulcers product concept test – group discussions in Germany
Onychomycoses product concept test – depth interviews in Germany
Acne product assessment & usage study – semi-quantitative interviews in Austria
Ulcers product concept test – group discussions in Austria, Germany & UK
Acne product assessment & usage patient study – semi-quantitative interviews in Germany
Acne product assessment & usage physician – semi-quantitative interviews in Germany
Mycoses: OTC switching study – quantitative interviews in Argentina, Brazil & México
Atopic dermatitis communication test – qualitative interviews in Germany, UK, France, Italy & Spain
Psoriasis product concept test – multi-method survey in Germany, France, Spain, Italy & UK
Psoriasis baseline study – group discussions in Germany, France & UK
Psoriasis baseline study & concept test – quantitative multi-method survey in Germany, France, Spain, Italy & UK
Systemic antimycotics baseline study – qualitative interviews in Germany, Spain, France, Italy, The Netherlands, Sweden & UK
Burns gel handling test – qualitative multi-method survey in Germany, Spain & UK
Acne Ad Test - communication test in France, Germany, Spain, Italy
Atopic Dermatitis pre-launch, concept test in Poland, Czech Republic, Hungary, Slov
Atopische dermatitis ad test communication test - qualitative interviews in UK, Germany, France, Spain, Italy

DENTAL / ORAL DISORDERS

Periodontitis baseline study – semi-quantitative interviews in Germany
Periodontitis product concept test – semi-quantitative interviews in France, Italy, UK & USA
Dental products – quantitative congress study

DIAGNOSTICS / MEDICAL EQUIPMENT

Contrast Medium concept test – group discussions in Germany, Italy, UK
Ventilation Monitoring System concept test – group discussions in Germany
Package test for an ICU product – group discussions in Germany, France, Italy
Decentralized testing baseline study – group discussions and semi-quantitative interviews in Germany, Spain, France, Italy & UK
Immune Assay Testing folder test – depth interviews in Germany, France, Spain & Italy
Contrast Medium baseline study – semi-quantitative interviews in Germany, France, Italy and S. Korea
Blood Glucose Testing baseline study – semi-quantitative interviews in Germany, France, Italy, The Netherlands & UK
Nuclear medicine baseline study – depth interviews in Germany, Italy, Japan, UK & USA
Contrast media baseline study – semi-quantitative interviews in Germany, France, Japan & USA
Contrast media pricing study – semi-quantitative interviews in Germany, Japan & USA
Infusion bag product concept test – telephone interviews in Sweden & The Netherlands
Transplantation name test – quantitative interviews in Germany
Diagnostic agents product concept test – semi-quantitative interviews in Germany
Diagnostic agents company image test – telephone survey in Germany, Spain, Italy, Japan & USA
POC testing device (blood gas analysis) concept test - quantitative interviews in Germany, Italy, UK, Sweden & USA
Premium Quality PCR Reagents, microbiology testing baseline study, quantitative interviews in Germany, France & USA
New Primary Care System - quantitative study in Germany, Italy, Swiss & USA

Main Indication Areas (as of March 2003)

Cont.

OTC STUDIES

OTC in Southern Asia – qualitative study in South Korea, Taiwan, Indonesia
Self-medication – qualitative depth interviews in Germany
Company image study (among pharmacists) – quantitative congress study
OTC baseline study – depth interviews in China
OTC baseline monitor study – depth interviews in China
OTC switching study – quantitative interviews in Argentina, Brazil & México
Perception of OTC Analgesics – qualitative interviews in The Netherlands

VACCINATIONS

Influenza delivery devices handling test – qualitative interviews in Germany
Vaccine packaging handling test – qualitative interviews in Germany & USA
Hepatitis B vaccination baseline study – qualitative interviews in Germany
Paediatric vaccinations handling test – semi-quantitative interviews in Belgium, France, Germany, UK & USA
Rotavirus vaccinations handling test – semi-quantitative interviews in Germany, France, UK & USA
Corporate identity - qualitative interviews in Germany, Italy, Spain, Hungary, UK
Infanrix Hexa concept test - qualitative interviews in Germany, Italy

INTERNET-RELATED SURVEYS

COPD – online website evaluation
Weight Management – online website evaluation
E-commerce of Pharmaceuticals – group discussions in Germany
HIV and Homosexuality: an internet survey among gays in Germany
Online survey hypertension concept test - in Belgium, Swiss, Germany, Netherlands, Sweden, Finland

OTHERS

Fibrin glue baseline study – group discussions and semi-quantitative interviews in China
Fibrin glue baseline study – qualitative interviews in Germany
Anesthesia and Sedation robots: concept test in main European countries
Handling Test for new Insulin Pen in Germany
Vessel Sealing Technology that Provides Improved Procedural Efficiency and Workflow during Surgery Concept Test in Germany & France
Medical Device for Anaesthesiology, quantitative interviews in France, Germany, UK, Italy
Nuclear medicine study liquid cancer awareness study - qualitative interviews in Germany, France, Italy, Spain, UK, Netherlands, Belgium, Swiss
Nuclear medicine benchmarking - quantitative interviews in Germany, France, Italy, Spain, UK
